SUMMARY OF THE FACTS OF THE CASE/CHARGES

Time period: since June 2020

Crime scene: various, worldwide

The subject is suspected of having been a member of the "Trickbot" group, also known as "Wizard Spider".

The group has been active since at least 2016 and has used various malware variants, including the Trickbot malware – after which the group was named –, in order to infect computer systems, steal sensitive data and, in many cases, to subsequently install ransomware and thereby encrypt systems and extort ransom, to be paid in cryptocurrency, in return for the decryption.

The group used the Trickbot malware as well as other malware variants such as Bazarloader, SystemBC, IcedID, Ryuk, Conti and Diavol.

According to the investigations conducted by the BKA, at times, the Trickbot group consisted of more than 100 members. It works in an organized and hierarchically structured manner and is project and profit oriented.

The group is responsible for the infection of several hundred thousand systems in Germany and worldwide; through its illegal activities it has obtained funds in the three-digit million range. Its victims include hospitals, public facilities, companies, public authorities, and private individuals. In Germany alone, the group has caused losses amounting to at least EUR 6.8 million.

It is assumed that the wanted person lives in the Russian Federation.

The current whereabouts of the wanted person are unknown.

INFORMATION WANTED

The police ask you to provide information in response to the following questions:

- Have you seen Artem Igorevich KUROV?
-
- Can you provide information on his current whereabouts?
-
- Do you have any information indicating that the wanted person travelled outside the Russian Federation?
-
- Do you have or have you had any contact with the wanted person?
-
- Do you have any information on online accounts or means of communication that the wanted person currently uses?

In the course of the investigations, the BKA intensively analysed and evaluated the Trickbot group's internal chat communication, which had become public early in 2022 under the name of "Conti-Leaks", "Trickbotleaks" and "Trickleaks". Information relating to this data is not needed.

In justified cases, the information provided can be treated with confidentiality.
